

## NEHRU HALL – 24/02/2017

- The floor of the kitchen is very dirty needs to be cleaned periodically so that it will not attract the flies
- Pipe lines inside the kitchen are leaking, needs to be repaired
- **Floor cleaning machine** is needed.
- **Fly catcher** machines are needed both in the mess and the kitchen. There are few hung in the dining area but none working.
- **Bain Marie** is needed
- **Utensil racks** are needed
- **Chimeneys** are needed. Its an old hall and no chimneys are installed.
- The whole kitchen needs complete renovation (Tiling the walls can be useful)
- Soaking at too many places in the hall taking from the bathroom to offices including the kitchen. Needs renovation. (Repeated complaints given as informed by the wardens but no proper steps taken)
- Fire extinguishers are needed

## Civil Work

- The whole hall needs a complete white wash.
- Window panes are broken at maximum number of windows, needs to be changed.
- **Repeated complains had been given to the Sanitary and Civil works section, but nobody is paying any attention.**
- The Sanitary people are even not coming to see the complaints
- The Drains adjacent to the mess (outside) are not covered and is also causing water logging. It needs to be covered otherwise it is attracting the flies
- **Electrical wiring is coming off of the roofs in several places inside the hall corridors. Needs immediate attention**
