

Vidya Sagar Hall – 10/03/17

Mess

- The entrance canteen and some of the other privatized commercial shops needs to be removed from inside the hostel to outer premises of the hall building for security reasons
- Kitchen area is very dirty. Needs to be cleaned in a regular basis.
- **Dosa tawa** is extremely dirty and it should be cleaned. The carbon layer can be cleaned by proper scrubbing.
- Cooking area is extremely oily and dirty. Needs proper cleaning
- Chimney is desperately needed
- **Bain Marie** is needed in the mess
- **Utensil racks** are needed

Civil

- Kitchen needs complete renovation and facelift
- The drainage system closer to the kitchen is a very lengthy one. It should be designed in a shorter and straight way. The warden of the hostel has already submitted the design of the drainage system to the civil works section.
- Entry of the toilet for the workers inside the mess/kitchen area needs to be relocated. Currently it's from the mess area. Wardens have already requested but nothing done yet.
- Garbage cleaning is badly needed. Back side of the hostel has become a dumping ground for unutilized things.
- The floor cleaning utilities like floor mops and all should be kept in a closed space as they are lying here and there around the hostel openly and looking dirty
- The water cooler in the ground floor near the first wing is overflowing, needs to be repaired
- Students have asked for 4 water coolers
